Decision theory (or the theory of choice) is the study of the reasoning underlying an agent's choices. Decision theory can be broken into two branches: normative decision theory, which gives advice on how to make the best decisions given a set of uncertain beliefs and a set of values, and descriptive decision theory which analyzes how existing, possibly irrational agents actually make decisions.

Decision theory - Wikipedia

Research is central to the monetary policy framework. The Bank continues to broaden its research and analysis of structural and sectoral issues, while establishing research partnerships with outside institutions and individuals.
