

taxonomic keys to plant pdf

Plant identification is the process of matching a specimen plant to a known taxon. It uses various methods, most commonly dichotomous keys or multi-access keys

Plant identification - Wikipedia

Plant identification is necessary to the success of any weed control program. Frequently, simple plant keys or "picture book" identification guides are

Weed Identification: 3-99

Flora is the plant life occurring in a particular region or time, generally the naturally occurring or indigenous "native" plant life. The corresponding term for animal life is fauna. Flora, fauna and other forms of life such as fungi are collectively referred to as biota. Sometimes bacteria and fungi are also referred to as flora, as in the terms gut flora or skin flora.
