

the alcohol and addiction pdf

Alcoholism is characterised by an increased tolerance to alcohol “ which means that an individual can consume more alcohol “ and physical dependence on alcohol, which makes it hard for an individual to control their consumption. The physical dependency caused by alcohol can lead to an affected individual having a very strong urge to drink alcohol.

Alcoholism - Wikipedia

If you are like many Americans, you drink alcohol at least occasionally. For many people, moderate drinking is probably safe. It may even have health benefits, including reducing your risk of certain heart problems.

Alcohol: MedlinePlus

History. Alcohol distillation was known to Islamic chemists as early as the eighth century.. The Arab chemist, al-Kindi, unambiguously described the distillation of wine in a treatise titled as "The Book of the chemistry of Perfume and Distillations".. The Persian physician, alchemist, polymath and philosopher Rhazes (854 CE “ 925 CE) is credited with the discovery of ethanol.
